

## Senior Power Utility Managers

Gridworks is seeking French speaking Senior Power Utility Managers to work with it on its investments in T&D utilities in Africa.

Gridworks is a targeted response to the need for long term investment in power transmission and distribution in Africa.

We are seeking professionals, who are comfortable operating in the French language, with experience in senior management roles in power transmission and distribution. We are particularly interested in finding candidates for the roles of Managing Director, COO, Maintenance Manager, Commercial Manager, CFO and senior technical managers.

We are seeking self-starting team players, with relevant qualifications and a minimum 15 years' experience in a utility business, at least 5 of which were/are in a senior management role.

If you believe that you have the necessary qualifications, experience and drive to be part of a innovative team with a mandate is to contribute to improving the supply of electricity in Africa, please send your CV in confidence to [recruitment@gridworkspartners.com](mailto:recruitment@gridworkspartners.com)
